

Your Global Network Integrator

www.gt-t.net **866-777-9166**

DENVER · DUSSELDORF · LONDON · WASHINGTON DC

Global Telecom & Technology, Inc.

- **GTT is a global network integrator that provides its clients with a broad portfolio of wide-area network and wireless mobility services.**
 - **With over 800 worldwide supplier relationships, GTT combines multiple networks and technologies to deliver cost-effective solutions specifically designed for each client's unique requirements.**
 - **GTT enhances client performance through our proprietary systems, comprehensive project management and 24x7 operations support.**
 - **Headquartered just outside Washington, D.C. in McLean, Virginia with offices in London, Denver and Dusseldorf.**
 - **GTT provides service to more than 300 enterprise, government, and carrier clients in over 100 countries, worldwide.**
-

Company Facts

Leading Technology and Global Network Integrator

Providing Global Wide Area Network (WAN), IP transit and Managed Data Services

- **Headquartered in Washington DC and originally founded in 1999**
- **Offices in London, Denver and Düsseldorf**
- **850+ customers worldwide**
- **10,000 services installed**
- **100,000+ WAN points of presence worldwide**
- **63 Global datacentre Points of Presence (PoPs)**
- **Over 800 partners in over 100 countries**
- **One of the top 30 Internet backbones in North America**

Company Focus

A New Breed of Telecom Company – As your global network integrator, GTT can provide custom tailored data solutions to organisations around the globe.

Service Offerings

Providing Global Wide Area Network (WAN), Dedicated Internet Access (DIA) and Managed Data Services

- Private Lines T1/E1, DS1, DS3, OC3/STM1, OC192/STM 96
- IP Ethernet Transport – 10 Mbps to 10GigMPLS Network (MPLS VPN, VPLS, Point-to-Point Ethernet)
- Pass Enterprise Mobility

Dedicated Internet Access (DIA)

- IP Transit – Speeds 2Mbps to 10Gbps From Over 50 Carriers Worldwide
- Multi-Platform Broadband Access

Managed Data Services

- Managed Router
- Managed NOC
- Colocation

The GTT Difference

Reliable, Resilient and Cost Effective Connectivity

- Consultative, Customer-Centric Approach / Lowest TCO
- Rapid Deployments
- Customized high performance solutions
- One point of contact for global provisioning
- End-to-end delivery and support
- 24/7/365 Network Operations Centre
- Proprietary Client Management Database (CMD) – global database/portal for instant generation of network design and customer life cycle management

Customer Application Examples

- **Very Small Aperture Terminal (VSAT) services for global oil and gas exploration company in remote Africa.**
- **Dedicated IP services for large Global Systems Integrator and outsourcing firm all across South America.**
- **Private line services for a Global Banking Firm in Bahrain, Dubai and Qatar.**
- **Large SONET Network Ring for International Financial Institution in the Caribbean.**

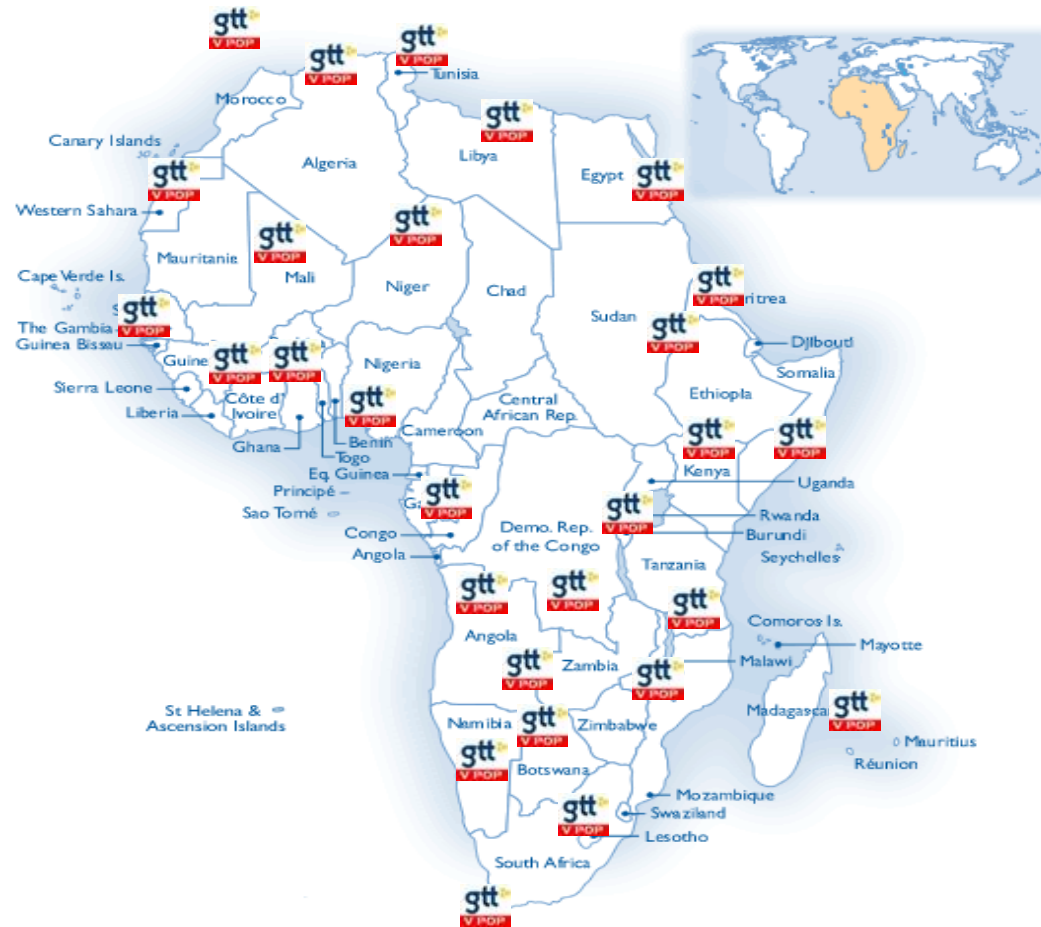

GTT at a Glance

How we do it...

“We do not promote any one network...

We provide the best of *all* networks”

GTT Future

- **Recent Acquisition of WBS Connect**

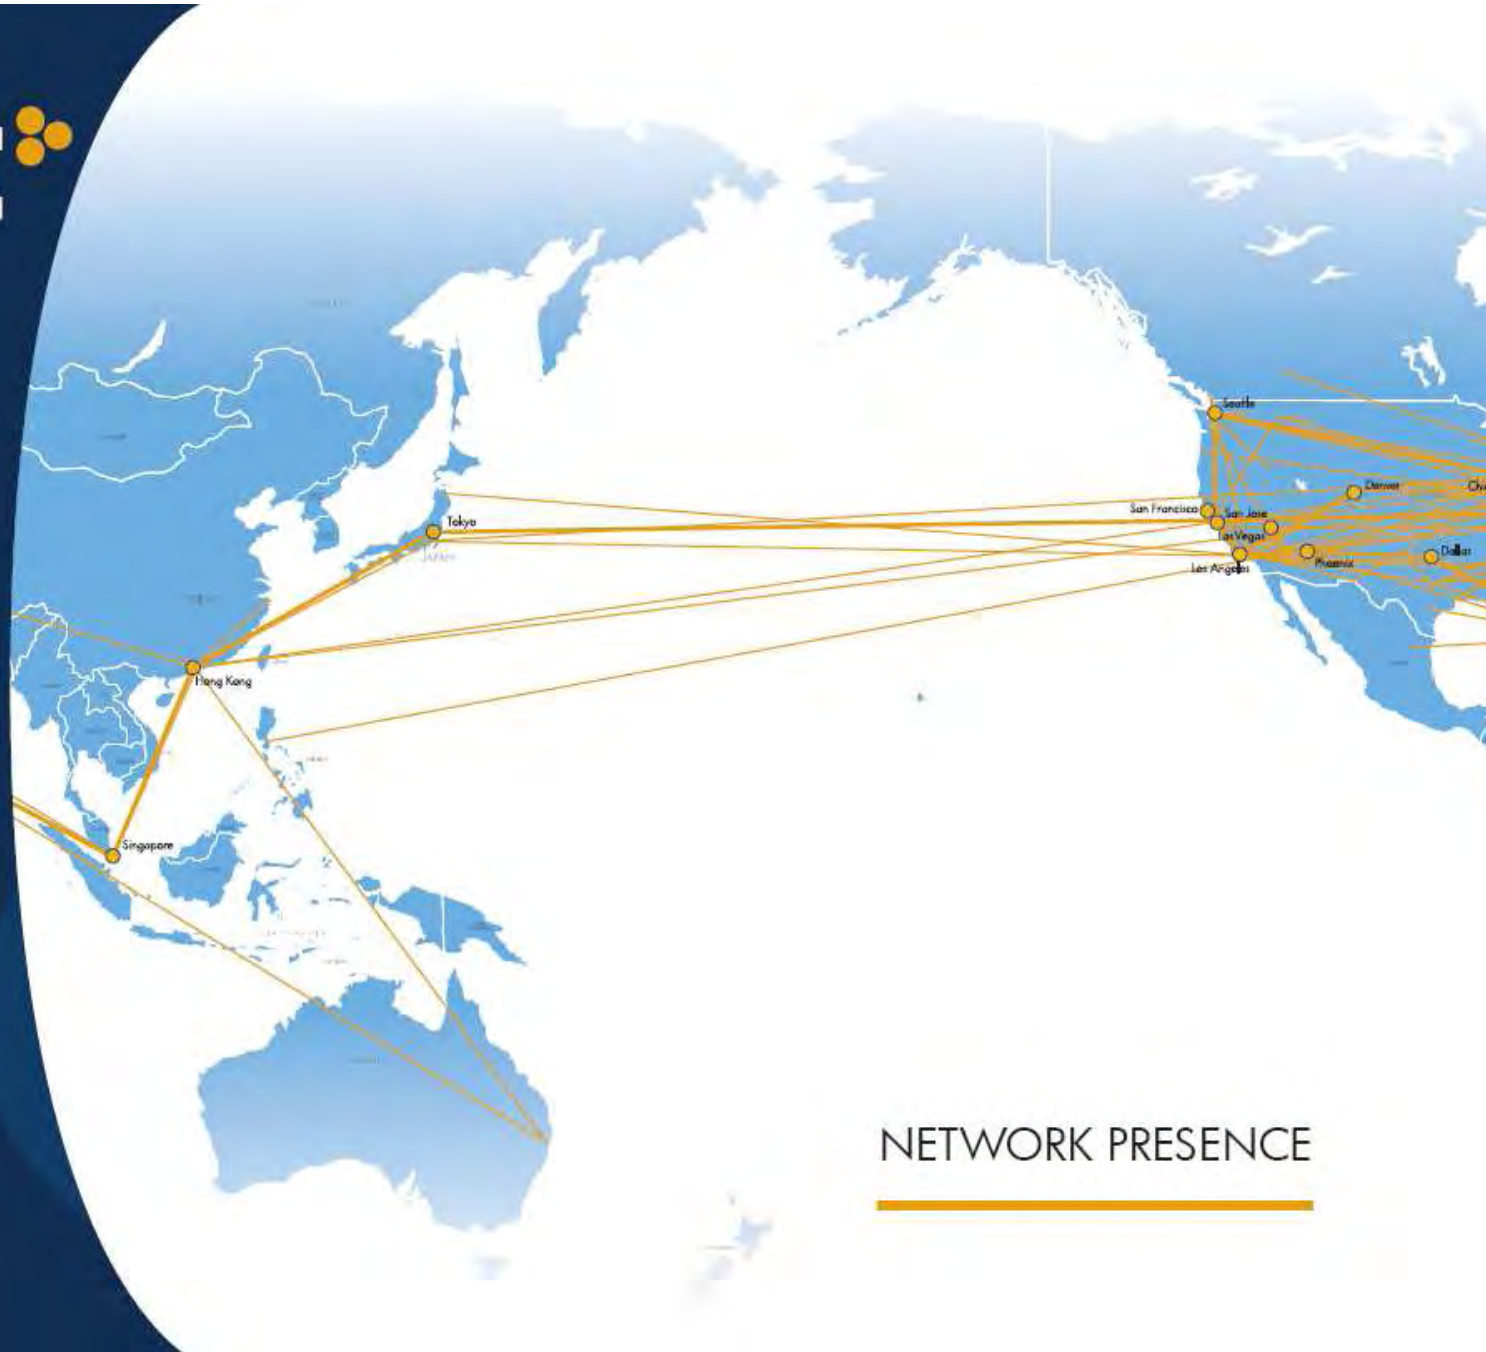

- 66 PoPs Worldwide
- One of the top 30 Internet Backbones in North America
- Why did we buy a network?
 - Still operating as carrier neutral VNO / Hard to reach locations
 - Bring down costs to customers
 - Strategic decision is to grow organically and through merger and acquisition

- **GTT due to acquire Global Capacity assets**

- 100 data transport customers generating up to \$25 million in annualized revenue
- Will Increase GTT annual revenue to \$130 million

- **Listed on the NYSE as:**

Global Telecom & Technology, Inc. (“GTT”), (OTCBB: GTLT)

GTT Benefits

- **One Master Service Agreement (MSA)**
 - GTT provides instant access to over 800 carrier networks with a single MSA
- **Access to 100,000 Points Of Presence**
 - GTT's global footprint means nothing is "off-net"
- **Quick Price Quotes**
 - GTT compares and combines multiple suppliers to design your optimal network
- **Streamlined Implementation**
 - GTT coordinates installation across all carriers
- **Global Network Operations**
 - GTT's Network Operations Center (NOC) supports all vendors
- **End-to-End SLA**
 - GTT provides single MSA to cover all carriers
